CRESCENT YAMAHA | 23 BLACK MOOR RD, EBLAKE INDUSTRIAL ESTATE, VERWOOD  
BH31 6AX, UNITED KINGDOM | +44 1202 820170 | SUPPORT@CRESCENTMOTO.UK

Yamaha Motor Europe and Crescent Yamaha, home of the Pata Yamaha with Brixx WorldSBK team, are proud to announce the Limited Edition Toprak Razgatlıoğlu Yamaha R1 World Championship Replica, celebrating the Turkish star's 2021 FIM Superbike World Championship title and his spectacular on-track exploits.

This exclusive track-only machine is strictly limited to 21 pieces globally, reflecting the historic 2021 season – a celebration of the Turkish rider's first World Title, along with Yamaha's first WorldSBK Manufacturers' Championship since 2009 and Pata Yamaha with Brixx WorldSBK's Championship Teams' victory, culminating in the 'Triple Crown'.

Toprak R1 track-ready replica - Limited to 21 pieces globally

**Each of these exclusive Yamaha R1 machines will be built in the Crescent Racing PRO SHOP, using the experience and skills amassed during the last six years running the Official Yamaha WorldSBK project.**

This makes for the ultimate “track-ready” WorldSBK replica R1, producing 205 bhp at the rear wheel (an increase of 20 bhp over the standard R1) with linear torque delivery via the WorldSBK-spec Akrapovic exhaust and latest GYTR race ECU, weighing under 175kg (with all fluids – a huge 26kg reduction from the standard bike).

The R1’s class-leading handling is taken to another level via this significant weight reduction and addition of the legendary Ohlins suspension components, factory-spec upper fork clamp and forged Marchesini wheels.

And while nobody can out-brake “El Turco”, the Brembo Racing system on this exclusive R1 guarantees full power, fade-free retardation at any circuit.

To fight for the WorldSBK Championship, it’s the details that matter – and the Toprak WorldSBK

# EL TURCO

replica shines bright with the deepest quality paintwork, highest quality components throughout, titanium fasteners, and an attention to detail in the track-ready build which leaves no doubt that this R1 has been developed and delivered directly from the Crescent Yamaha squad.

**All Toprak Razgatlıoğlu Championship-Winning Limited Edition R1 Replicas will also include the following significant assets:**

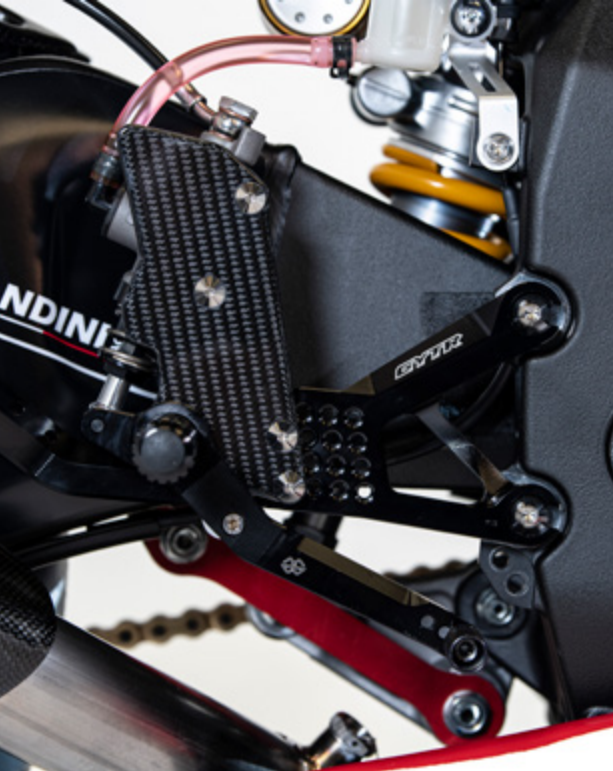

- Unique limited edition badging and technician-signed build identification
- Framed limited edition certificate, signed personally by Toprak and Team Principal Paul Denning, certifying the edition number alongside VIN number and the purchaser’s details
- VIP hospitality passes for two people to a 2022 WorldSBK event of choice as a VIP guest of the team, with pit-box visit and the opportunity to spend time with Toprak
- Personalised machine set up and one-on-one rider coaching day with Crescent Yamaha’s James Hillier OR Niall Mackenzie (UK circuit only; overseas set up and training by arrangement)
- A personal signed piece of riding equipment, genuinely used by Toprak during the 2021 WorldSBK Championship campaign

**Price: £39,500 inc VAT**

Toprak R1 track-ready replica - Limited to 21 pieces globally

# R1 WORLDSBK REPLICA SPEC

## PERFORMANCE

Power & Weight	205 bhp at the rear wheel (increase of 20 bhp over standard) weighing under 175kg (all fluids – a huge 26kg reduction)
GYTR ECU Set	SBK mapping options, race-tuned Traction Control, Engine Brake & Wheelie Control strategies
GYTR Wiring Harness Set	Weight reduction, race spec with lightweight lithium battery
Akrapovic Titanium Silencer	WorldSBK replica, maximum power, minimum weight including carbon heat shield
Akrapovic Titanium De-Cat Link Pipe	Huge weight reduction (-6.5kg), maximum power and torque
BMC Race Air Filter	Increased performance & engine protection, WorldSBK supplier
Cordona Quickshifter System	Quicker, more precise up-shift & clutchless down-shifts
Yamalube Racing Lubricant	Potential to run at peak performance & deliver durability

## RIDING CONTROLS

GYTR Top Fork Clamp	New 2022 specification, WorldSBK team replica
GYTR Steering Stop Locks	Protects chassis at full steering range
GYTR L/H & R/H Switchgear	All functions in one racing switch assembly
GYTR Quick Action Throttle	Shorter travel racing specification
GYTR Clip-On Handlebar set	Racing-spec, fully adjustable
Domino Clutch Lever	Identical part to R1 WorldSBK machine
Crescent ProShop Key-less Ignition Switch	Includes anti tamper safety shield
ProBolt Top Yoke Nut, Titanium Bolts & Clip-ons	WorldSBK Team supplier

## CHASSIS

GYTR Keyless Fuel Cap & Removal Tool	New 2022 specification, WorldSBK Team replica
GYTR Footrest Kit	Racing-spec, fully adjustable
GYTR Quick Release Rear Wheel System	Easy rear wheel changes, racing underslung rear caliper fitment
GYTR Safety Wire Lock Bracket	Three-Piece system

## OHLINS SUSPENSION

Road & Track Forks	WorldSBK technology suspension system
TTX36GP Rear Shock Absorber	
Manual Steering Damper	Wide adjustment range, easy to find feel & feedback for stability

## DRIVETRAIN

DID 520ERV Racing Chain	Light, low friction, high-durability
Gandini Drive Sprocket, 520 – 15T	Identical to the R1 WorldSBK machine for weight, efficiency & performance
Gandini Rear Sprocket, 520 – 41T	

# WORLDSBK REPLICA SPEC

## WHEELS & TYRES

Pirelli Front Tyre 125/70 - 17	Latest WorldSBK-spec 125 section front tyre
Pirelli Rear Tyre 200/65 - 17	High grip, good durability SC1 compound
Marchesini M7RS Genesi Aluminium Wheels	Lower weight, anodised blue finish identical to the R1 WorldSBK machine, Team supplier
ProBolt Speed Sensor Rotor Bolts	Front & Rear, WorldSBK Team supplier
ProBolt Disc Bolts	Front & Rear, WorldSBK Team supplier

## BODYWORK

GYTR Race Fairing Kit	Lightweight & Kevlar reinforced for strength
Plastic Bike Italy Carbon Under Tray	WorldSBK Team supplier
MRA Race Fairing Screen	Lightweight, perfect fit as used in WorldSBK
ProBolt Screen Fitting Kit	WorldSBK Team supplier
"Race Seats" Italy	WorldSBK Team supplier / Exclusive 54 logo
Lightech Carbon Fuel Tank Extender	Improved rider support under braking
Lightech Carbon Rear Hugger	Lightweight & improves airflow over wheel
Dream Machine Paintwork & Livery	To exact 2021 WorldSBK Team livery

## BRAKING

Brembo Corta Corsa Master Cylinder	
Brembo Front Brake Reservoir	
Brembo GP4RX Calipers	WorldSBK Team supplier, race performance
Brembo T-Drive Front Discs 320mm Race Spec	
Brembo Rear Disc	
Brembo Caliper Fixing Kit	Adapts to Ohlins fork
ZETA Remote Front Brake Lever Span Adjuster	Identical part to R1 WorldSBK machine
Hel Performance Non-ABS Brake Line Kit	WorldSBK Team supplier, race performance
Ferodo FRF340 Race Brake Fluid	Highest temperature tolerance for minimum brake fade
GYTR ABS Emulator	Allows ABS removal for reduced weight, no ECU warnings

## TRACK PROTECTION

Acerbis Lever Guard	Identical to the R1 WorldSBK
GB Racing Engine Case Cover Kit	Identical to the R1 WorldSBK
R&G Racing Radiator Guard	Improved on track durability
GYTR Rear Sprocket Guard	Essential safety product
GYTR Front & Rear Axle Protection Kit	Protects crucial components
GYTR Paddock Stand Hooks	Lightweight & strong

## PADDOCK

GYTR Rear Racing Paddock Stand	Fits GYTR Stand Hooks
Capit TR54 Bike Cover	WorldSBK Team supplier
